About Us

I believe that it's possible to bring joy to others while getting paid to do so, okay – we'll call it a business! I started *Pawsitive Personal Pet Care* in 2004. My background includes pet sitting as a little girl and a love of animals fostered by my parents and then experience in kennels, education in animal behavior, and of course, my own pets! I have a background in biology, chemistry and the health occupations (clinical dietetics).

Anyway, I am doing most of the work for my business at this time and only seldom do I have to sub-contract to another pet sitter or dog walker. *In this case*, they are trained and covered by my policies and bonding.

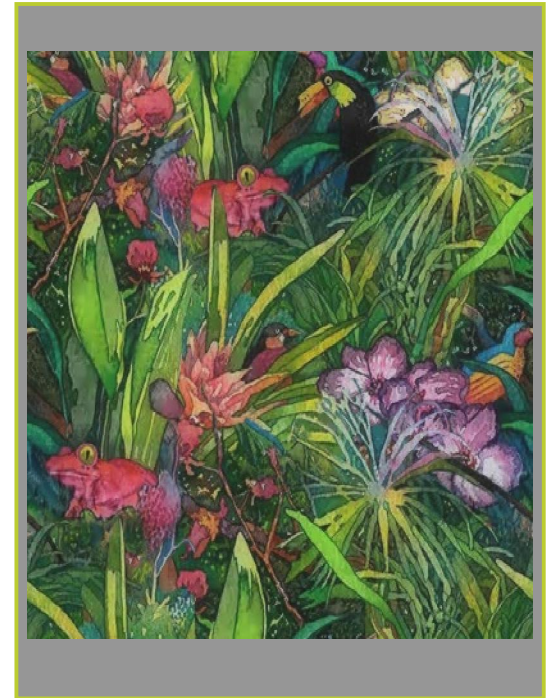

The advantages of a service like mine is it allows me to individualize each service (visits too), pay attention to details related to each client and pet's needs, maintain flexibility and continue progress toward my educational goals (e.g. animal training etc.) for my business. The National Association of Professional Pet Sitters gives me a wealth of information and resources, and I can network with other professional pet sitters to improve the services I give to owners and their animal companions. Besides all that, I just care and I like to think ***I have a way with animals*** . . . who knows?

**If your pets had a voice
We'd be their first choice. . .**

Professional Pet Sitting

Why it makes sense

It's great having animal companions, but what do you do when you have to go away without them or have to work long hours away from home? Boarding may expose your precious ones to illness and cause you extra expense and inconvenience. That's why Pawsitive Personal Pet Care comes to your home to offer you convenience, flexibility, and safety, comfort and *fun, fun, fun!* for your pets. You don't have to bother family, friends or neighbors with taking care of your pets instead you have a professional pet sitter who will be there to consistently give attention to, exercise, clean up after, and in case of emergency, be there to make sure your pet(s) are okay, and if necessary, get them to your veterinarian in time. In addition, we're bonded and make your home look "lived in" so you have more security and peace of mind while you're gone. We're also one of the only services Certified by the National Association of Professional Pet Sitters (NAPPS) in this area. Certification signifies knowledge of veterinary medicine, animal behavior, the ethics and workings of the pet sitting and pet care profession and requires a higher standard of performance in general, than non-certified, non-NAPPS and certainly non-professional pet sitters. And best of all, we like to have *fun!*

Our Services

Pet Sitting.

Day Visits: Visits scheduled for anytime between 8:30am and 8:00pm lasting for a minimum of 45 minutes each. Visits may be scheduled outside of these times for an additional fee. Visits should be arranged at least three days in advance.

Overnight Visits: Available on a limited basis. Scheduled from 8pm until 8am or on an individually arranged schedule.

Both Day and Overnight Visits include the following:

Lots of fun!

Feeding (including special diets) and fresh water daily

Medication administration (usually *no* charge)

Walk or playtime for fun and exercise with safety always in mind

Light grooming, hygiene and check over (fleas, ticks, cuts on skin, paws, ears, etc)

Litter box, food area, poop, cage and general pet cleanup

Mail and newspaper pick-up, trash and recycling, security checks, blind and light rotations

Indoor plant watering, fish feeding, if necessary

Lots of petting, talking to, love and attention

On going consultations concerning your pets and home by e-mail or phone

More fun!
